Create an Oracle workflow process to display a notification for your user

1. **Navigate**

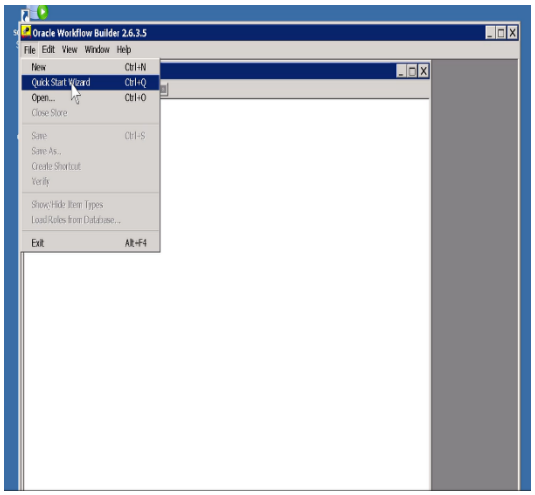

→System Administrator → User →Define → Query: SAFA1%

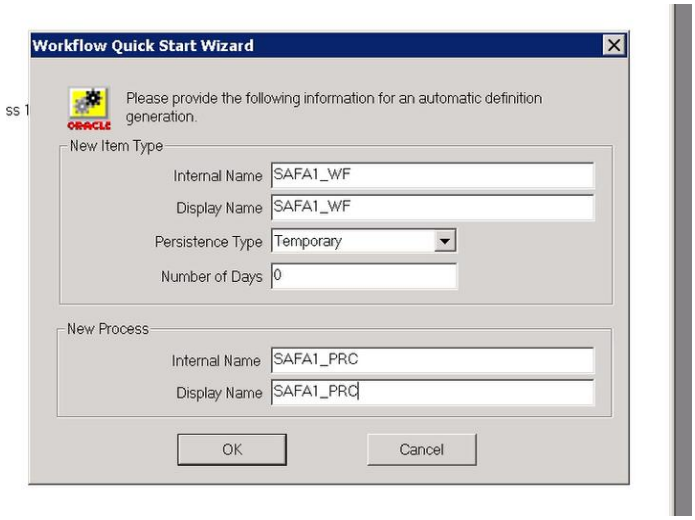

2. **Add RESPONSIBILITY: Workflow Administrator Web Applications**

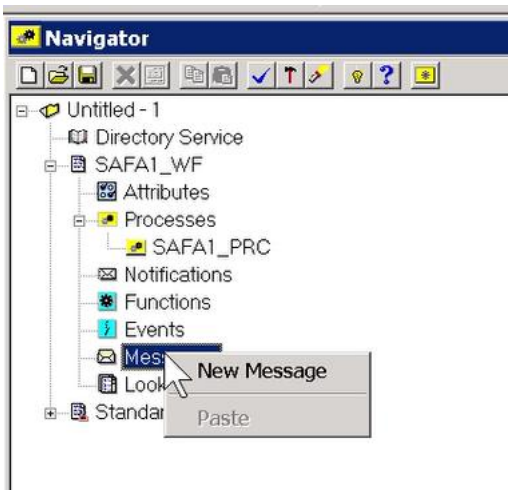

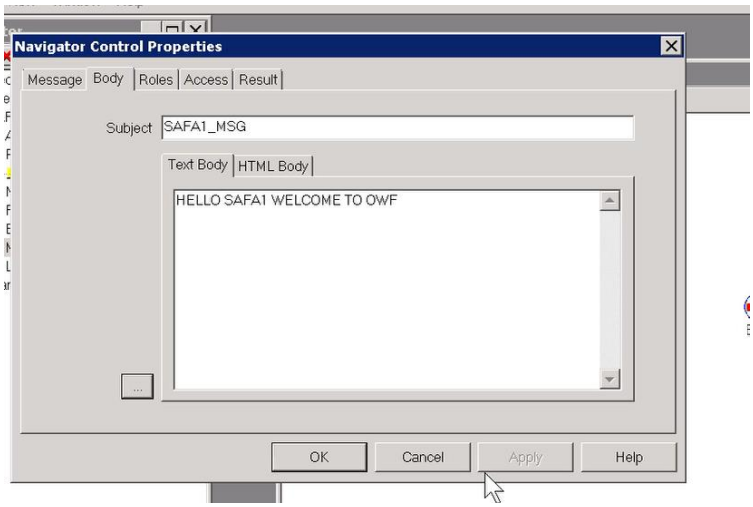

3. Open WF Builder : File → Quick start wizard → Creating a WF Process

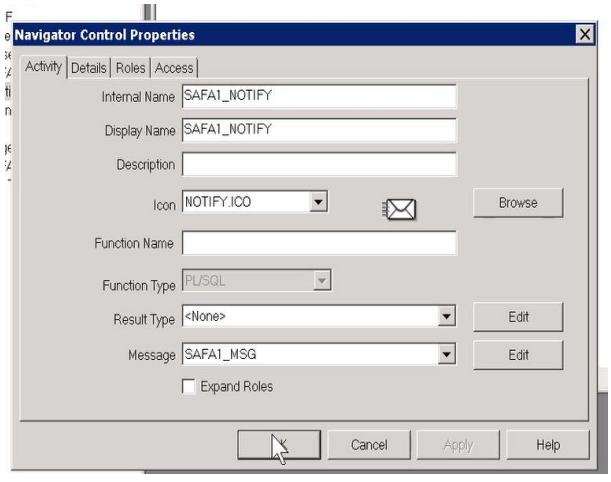

4. Message → RtClk → Body : HELLO SAFA1 WELCOME TO OWF

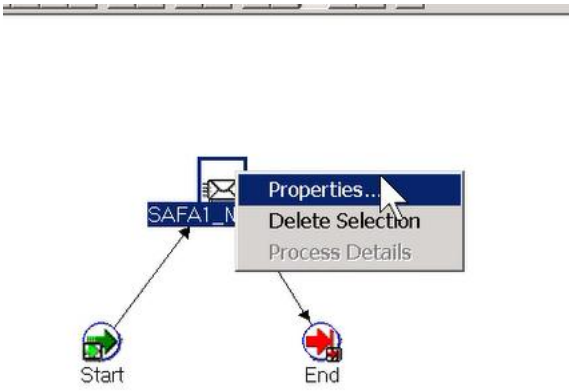

5. Notification →RtClk → WF_NOTIFY1

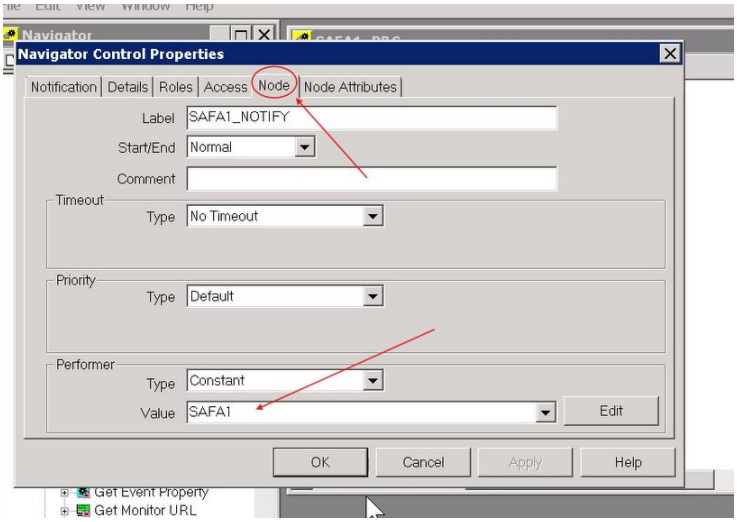

Drag the Notification between START and END (Diagram):

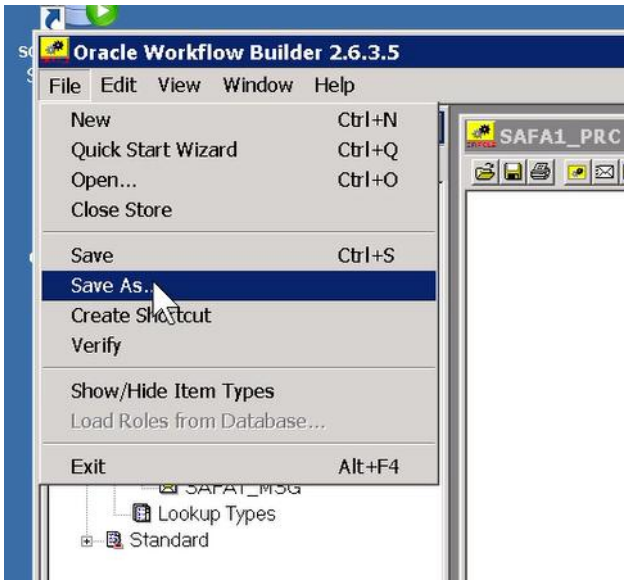

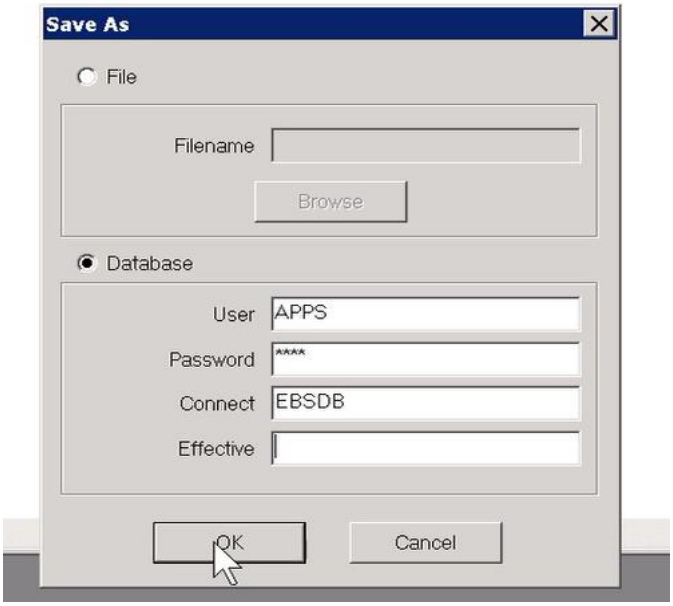

6. **NOTIFY1 → RT CLK → Properties**
→ Node (Tab) → Value: SAFA1 (EBS User)

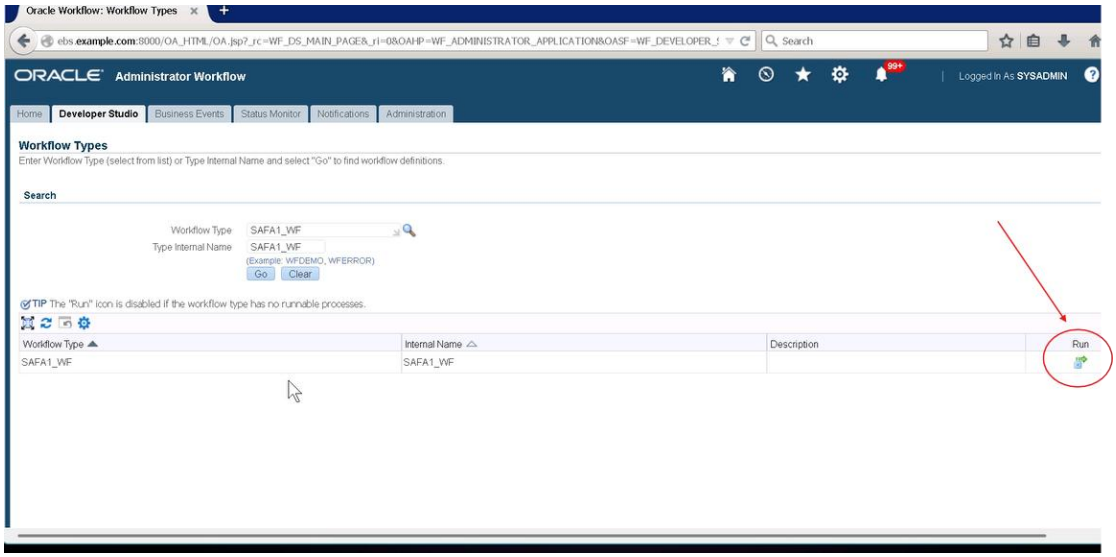

7. **File →Save as → Database: APPS apps EBSDB**

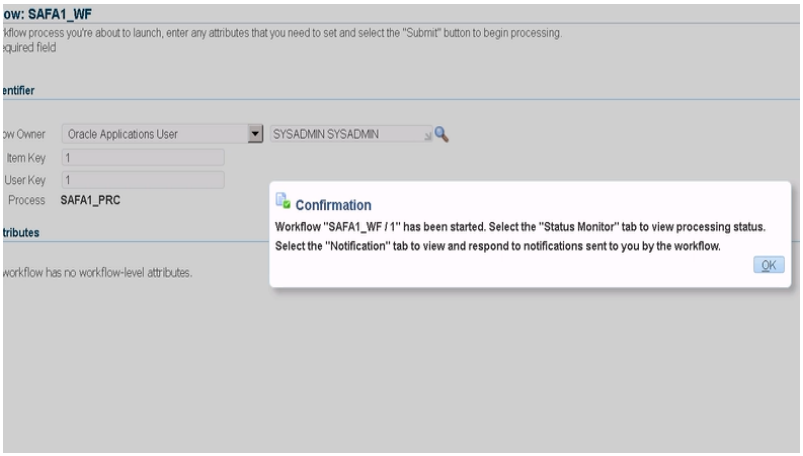

8. **Navigate to EBS and Run the process created in WFB using Developer Studio**

   →Name: SAFA1_WF → Search →Select → Run

9. **Status Monitor →SAFA1_WF →Search**

10. **Notification→Select →Open**

View → **HELLO SAFA1 WELCOME TO OWF**
